		Please provide all data files or explanatory documents transferred to Human Rights Watch or its representatives referenced in this report: Human Rights Watch, "Border Enforcement Policies Ensnare Parents of US Citizen Children," January 8, 2015 A link to this report can be found here: https://www.hrw.org/news/2015/01/08/border-enforcement-policies-ensnare-parents-us-citizen-children "In response to a Freedom of Information Act request, CBP provided Human Rights Watch with a dataset containing information on more than 6.7 million border apprehensions between October 1, 2003 and September 30, 2012. For this analysis, Human Rights Watch only used data from October 1, 2010 through September 30, 2012, because of the level of incomplete data as described below. The unit of analysis is each "apprehension" of an individual. Therefore, individuals apprehended multiple times would appear in the dataset as multiple entries. The data was provided as a 1.28 GB Microsoft Access database of 11 variables: date of entry, date of apprehension, location of apprehension, country of citizenship, gender, marriage status, number and nationality of children, DHS status, entry status, disposition, and statute under which the migrant was charged."

		I am a frequent traveler and have both Global Entry and TSA precheck. However, every time I travel to Australia, or when I return from the UK, and other countries, I go through secondary screenings. They call it random, but it is more frequent than that. I would like to know the reason that I am being flagged please because it is so embarrassing for me especially when I travel with my children(which is frequently). And I have done nothing wrong.
